

EDBERT LIMEN

Studying PTE Academic Preparation Course

What were the challenges you had to overcome? I had to overcome difficulty with English fluency, Grammar and Essay Structure.

How would you describe your teachers training style? Overall, the style is engaging. Different teachers have their own style, from Tom's technology oriented style to Hamad's casual brainstorming approach.

How will the skills you have learnt at EE help towards your future? I got the result that I needed for my Visa application, which is 79, but surprisingly I got an overall score of 90!

What has been your best experience at EE? Having different teachers and experiences. I love each of their eccentric teaching styles.

Would you recommend the course to your friends? Definitely. The materials are great for PTE Test Preparation, as well in improving your General English Proficiency.
